

ELECTRIC DECK OVEN –EU SERIES

CONSTRUCTION & FEATURES

- SS#304 stainless steel body construction for long lasting performance.
- Double glass cold door to enhance the vision of the product inside the baking chamber.
- Ceramic heating elements for uniform heat distribution within the baking chamber for better baking quality and long lasting system.
- Digital control panel for clear display of indicators, programmable for various baking modes and recipes.
- Independent steam generator for each deck (optional) for requested humidity baking recipes.
- Ceramic stone (optional) with fiber glass sheet inside to avoid cracking and heat preservation.
- Heat resistant halogen light and aluminized panels inside the baking chamber to enhance the product’s vision.
- Each deck is fully autonomous, future add in is available.
- Modular ovens incorporate an energy-saving device which distributes power between the modules thereby reducing electricity consumption.
- *For Pizza Deck, heating element power is reinforced to reach 400°C inside the baking chamber to bake fresh pizza Italian style dough.*

T2-SERIES – 2 TRAYS /DECK

SPECIFICATIONS	Description	1 Deck Oven w/ Proofer	2 Deck Oven w/ Proofer	3 Deck Oven, w/ Stand	4 Deck Oven, w/ Stand
	Model	T2-EE1D-P	T2-EE2D-P	T2-EE3D	T2-EE4D
	Dimension (mm)	1590x1155x1030	1590x1155x1430	1590x1155x1730	1590x1155x2130
	Inner size of deck (mm)	830x720x210	830x720x210	830x720x210	830x720x210
	No. of deck	1	2	3	4
	No. of tray/deck	2	2	2	2
	Tray Size	40x60cm	40x60cm	40x60cm	40x60cm
	Power	6.1kw	10.2	12.3	16.4
	Voltage	380V/3Ph/50Hz	380V/3Ph/50Hz	380V/3Ph/50Hz	380V/3Ph/50Hz
Weight (kgs)	220	360	430	570	

T3-SERIES – 3 TRAYS /DECK
